

Dear Hiring Team at Gameloft Việt Nam,

I am excited to apply for the Backend Programmer Intern position at Gameloft. As a passionate programmer in backend development and a love for gaming since childhood—Gameloft was my favorite when I had a Nokia phone — I am eager to contribute to Gameloft's innovative projects while further honing my skills within a dynamic team.

Thank you for considering my application. I look forward to the possibility of joining Gameloft and have the opportunity to contribute to the company.

Best regards

Nguyen Manh Hung
